ABOUT ME

Dedicated and self-motivated Frontend Web Developer with a passion for creating visually appealing and user-friendly websites. Seeking an entry level position to leverage my skills in HTML, CSS, JavaScript, React Js and Next Js to contribute to a dynamic web development team. Below you will find projects I've completed that showcase my skills and general background in developing software.

EXPERIENCE

Amazon Website Clone

Live Demo: <https://myamazon-lac.vercel.app/>

GitHub: <https://github.com/Kaksie-codes/amazonia>

Description: Successfully developed a replica of the Amazon website, complete with extensive product listings and a functional shopping cart. Leveraged Next.js, Tailwind CSS, NextAuth and Zustand to create a responsive and seamless user experience.

Netflix Website Clone

Live Demo: <https://net-flox.vercel.app/>

GitHub: <https://github.com/Kaksie-codes/NetFlox>

Description: I developed a fully responsive Netflix Clone using React Js, CSS, Firebase and Redux and then hosted it on Vercel. I also implemented features such as dynamic content loading by fetching movies from the TMDB API, creating a user friendly interface for users.

Portfolio Website

Live Demo: <https://nsikak.netlify.app/>

GitHub: <https://github.com/Kaksie-codes/realPortfolio>

Description: A personal portfolio website that reflects my passion for software development. Designed and built using with React Js and CSS to create a visually engaging and informative platform. This website showcases my skills, projects, and commitment to continual learning in the world of software development.

Multipage Fitness Website

Live Demo: <https://myfitnessapp007.netlify.app/>

GitHub: <https://github.com/Kaksie-codes/MyFitnessApp>

Description: Developed a multi-page fitness website using React Js and CSS. I also implemented seamless navigation between multiple pages using react router dom.
